> To a Small Wheat Market at Chicago Yesterday.

CEREALS ALL ADVANCED

And Only Provisions Showed a Falling Off.

Chicago, Aug. 9 .- Higher cables, good export engagements and recommendation wheat market today. September closing at an advance of %0%c. Corn was helped by continued hot weather and closed %c higher. Provisions declined a little for pork and lard, ribs closing

Wheat started with a material advance, September at 76@76%c to 76%c, as compared with yesterday's closing price of 75%c. Liverpool quotations, always an important factor in this market, showed an unexpected advance of %9%d, and this strength was reflected in the opening here. There was a moderate buy-ing demand from local shorts at the start, but the advance did flot result in Seattle, Wash., Aug. any pronounced increase in the volume of trading, and after the first few min-ute, prices dropped a little under realizing and selling by prominent o mmis-sion houses. For most of the session, in fact, the tendency was toward lower prices, traders apparently seeing no profit in wheat in 75c and over, and on one or two occasions the September price was forced down to 75%. On the Produce Exchange, today, the market closed as follows:
Butter—Market firm; creamery, 15620c; dairy, 14637c.
Cheese—Firm; 34,621c. of this selling was in the nature of real-izing by traders who had bought ear-iler in the week, but it was never heavy enough to cause real weakness. The market, in fact, was for the most part exceptionally dull. Late in the session a firmer tone was developed when reports showed that another good day's export husiness was being done, and prices gradually recovered. At the close, September was quoted at 76%076. No th-western receipts were 23 cars, against 205 last week and 156 a year ago. Chicago receipts were 266 cars, 42 of contract grade. Aggregate primary receipts were \$30,000 bushels, compared with (24,000 bushels a year ago. Shipments from primary points, however, were fully as remarkable, 755,000 bushels. Seaboard

clearances of wheat and flour amounted Corn was strong and higher on the weather conditions, oth winds again preweather conditions, of the wines again prevailing in the corn belt, where serious damnage was feared. Offerings were very light and local, while a good general demand existed. Receipts were 187 cars. September opened \$6% higher at 28% 28%, advanced to 28% 23%, and reacted to 38% 235%.

St. Louis, Aug. 9.-Wheat-Closing: Lower; No. 2 red cash, elevator, 72%c; Osts were dull, but firm, and a trifle higher, following other grain markets. Offerings were light and largely from elevator people. Buying was local and scattered. Receipts were 397 cars. Sep-tember opened 40 higher at 21% c and 35%c: August. 37%c; September, 37%c; December, 34%c; year, 34%c. Oats—Lower: No. 3 cash, 20%c; track, old at 21% #21%c

Provisions were, if possible, duller than usual. The tone was a little easier with the live stock market. There was some changing going on. The market apparently lacked outside support. September pork opened 7%c lower, at \$11.70, declined to \$11.67% and reacted to \$11.72%; September lard opened 2%c lower at \$1.50, declined to \$5.75 and reacted to \$6.77%; September the opened 3%c lower at \$5.50, declined to \$5.75 and reacted to \$6.77%; opened 250 lower, at \$7.12½, and declined to \$7.10.

JOHN BULL'S DIPLOMATIC HAND London, Aug. 9.-The flooded country beyond Pei Tsang adds immeasurably to the difficulty of the progress of the allies toward Pekin. This news reaches the Shanghal correspondents from Tien Tein, with statements to the effect that the situation at Tien Tein is again perflouowing to the seembling of Chinese troops within striking distance. The losses of the allies in the recent

operations are now said to be 1,300 men of which number the Russians lost 600 the Japanese 410 and the British 120. Gold Going to France and Currency to America.

New York, Aug. 3 .- Quotations were hardly more than nominal in the slock market today. There was not a single feature of striking interest in the day's trading and the aggregate number of shares soid fell below 100,000 for the first time in several years in a full trading day. There was a disposition to disregard the weakness reflected from London, in spite of the fact that sales for London account ran up to 8.00 shares, which is a large total compared with the recent average, but the declines which resulted here were hardly more than monoentary. The variation during the trading and the aggregate number of saraing the quantity of food and ammunition available might be useful to the latter part of the day was scarcely appreciable in most of the stocks traded in, and the average level of prices show an insignificant change today. It was noticeable, however, that in any individual stock in which a large order was excuted the resulting price movement was wide. This was true of either a sulling order or a buying. The decision reported by the syndicate which under-wrote the American allotment of the new British exche-quer bonds not to ship gold on Satur-day caused some surprise, in view of the obvious fact that the Bank of England based its maintainance of its existing discount rate on the expectation of early receipts of gold from the United States. "Kill all the German, the French, the Americans and the English. Drive all the foreigners away and our country will rest in peace.
